1　Prototypes

1.1　Ring Switcher

A ring switcher style infographic selector.

1.2 Webpage Images

The ability to place individual infographic on a webpage.
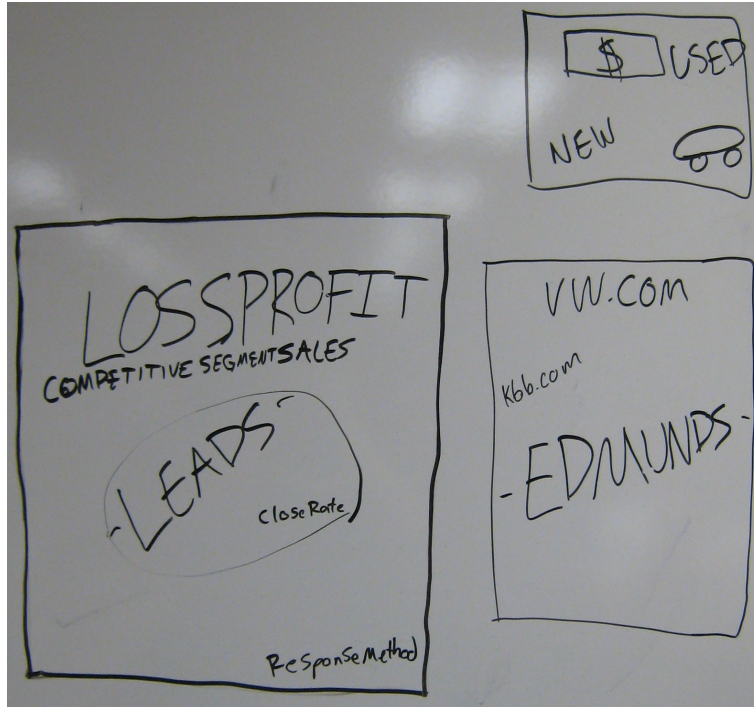

- Should the individual infographic be a static image file (.jpg / .png)

- Or animated? (example: HTML5 / Flash / .gif)

1.3 Showcase

Interface showing list of infographics. When a button is clicked, browser goes to page with infographic.

1.4   Tag Cloud

Infographic categories organized as tag clouds. When a tag is clicked, a new tag cloud appears showing relevant data. Several clouds may be clicked through.
